PROFILE

Passionate Software Engineer with a keen interest in cloud computing. Skilled in Java, Python, and web technologies, I thrive on integrating AWS and cloud solutions into innovative projects and solving complex problems.

PROFESSIONAL EXPERIENCE

Prodigy InfoTech – Gujarat, India   **March 2024 – April 2024**

Software Development Intern

- Developed temperature conversion program, ATM interface, and student course registration system using Java and Python.

CodSoft – Gujarat, India   **March 2024 – April 2024**

Java Programmer Intern

- Contributed to projects including Guessing game, quiz application timer, and Grade calculator, showcasing proficiency in Java programming.

PROJECTS

Travel Website | *Html, CSS, JavaScript, MongoDB, RESTful API*

- Crafted a comprehensive travel website that significantly decreased search time and provided various features for booking, including an easy payment system. Designed an eye-catching frontend to enhance user engagement and streamline the travel planning experience.

Movie Website | *Html, CSS, JavaScript, MongoDB, RESTful API, AI-ML*

- Designed a user-friendly movie website assisting users in discovering tailored movie recommendations based on genre, actors, or mood. Provides reviews, download links, and hidden gems all in one platform.

EDUCATION

Pandit Deendayal Energy University – Gujarat, India   **September 2021- May 2025**

Bachelor's Degree in Computer Science, 8.17 CGPA

SKILLS

Programming Languages: Java, JavaScript, Python, C++, PHP
